

LARGE POWER PRIMARY SERVICE
(General Service Classification)

SCHEDULE LP 2
(Rate Title or Number)

Company Rate Code:

LP-2

Availability:

Available to consumers with a Transformer Capacity not less than 1,000 kVA, but not greater than 5,000 kVA, supplied from distribution voltage class, three-phase power lines, subject to the established Rules and Regulations of the Association.

Type of Service:

Three phase, 60 Hertz, at the Association's standard voltages.

Rate:

\$200.00

Service Charge: Per consumer, Per month

Plus

Energy Charge: All kWh, per kWh

\$0.05647 (I)

Demand Charge: All kW, per kW

\$29.64 (I)

Determination of Billing Demand

The billing demand shall be the highest thirty- (30) minute integrated demand measured during the monthly billing period.

Power Factor Adjustment:

The Consumer agrees to maintain average power factor between 95% lagging and 95% leading. Adjustments will be made to correct for average power factors outside the specified limits, if and when the Association deems necessary. Such adjustments will be made by increasing the measured energy by 1% for each 1% by which the average power factor is out of the specified range.

DO NOT WRITE
IN THIS SPACE

Adjustment of Demand and Energy Charge:

This rate may be increased and/or decreased at any time due to changes in wholesale power rates and/or changes in Seller's internal rates. Consumer agrees to be subject to such modifications in the Tariff.
